STUDENT CONCUSSIONS AND OTHER HEAD INJURIES

The Board recognizes that concussions and other head injuries are serious and can potentially result in significant brain damage and/or death if not recognized and treated properly. This policy is intended to promote awareness of this issue as well as the safety of students participating in school-sponsored activities that may pose a risk of concussion or other head injuries. This policy also applies to all school-sponsored activities that the Superintendent determines, in consultation with school staff, pose a risk of concussion or other head injury (hereafter referred to as “any other covered activities”).

The Superintendent shall ensure that all training, protocols and forms implemented in the school unit are consistent with materials promulgated by the Maine Department of Education.

A. **Staff Training**

   All school personnel involved in school-sponsored activities shall receive training in the identification and management of concussions and other head injuries.

   All identified personnel will receive refresher training whenever the Maine Department of Education recommendations, protocols and/or forms have been revised.

B. **Student and Parent/Guardian Acknowledgment**

   Students who intend to participate in school-sponsored athletics (and any other covered activities), and their parent(s)/guardian(s) are required to sign the School Department’s Concussion/Head Injury Acknowledgment Form each year. Students may not participate in athletics (and any other covered activities) until the Acknowledgment Form is returned to the school.

C. **Removal of Students from School-Sponsored Activities, Evaluations and Medical Clearance**

   Any student suspected of having sustained a concussion or other head injury in any school-sponsored activity must be immediately removed from the activity, practice or game.

   A student suspected of having sustained a concussion or other head injury must receive a brain injury evaluation and written medical clearance from a licensed health care provider, trained in concussion management, and operating within the scope of practice such as an MD, DO, Physician’s Assistant or Nurse Practitioner prior to his/her being allowed to resume participation in the activity. Such return to participation may will be gradual, and in all cases should be based on current accepted standards of care and the health care provider’s recommendations.

D. **Academic and Disability Considerations**

   Teachers and other school staff should be alerted to possible cognitive and academic issues that a student who has sustained a concussion or other head injury may experience. School staff
shall permit adjustments to the academic day and/or expectations, consistent with a medical recommendation from the student’s health care provider.

E. **Concussion Management Team**

The Superintendent will appoint a Concussion Management Team to be responsible, under the supervision of the Superintendent, to make recommendations related to the implementation of this policy. The Concussion Management Team will include the school nurses, Athletic Director, Athletic Trainer and may include one or more principals or assistant principals, the school physician, and other school personnel or consultants as the Superintendent deems appropriate.

The team shall oversee and implement this policy and related protocols for concussions and other head injuries based on the generally accepted standards of care. This team will identify the school personnel who shall be trained in concussion signs and symptoms and the school activities covered by this policy.

The policy and/or related protocols should be reviewed when generally accepted protocols change.

CONCUSSION INFORMATION SHEET

A concussion is a brain injury and all brain injuries are serious. They are caused by a bump, blow or jolt to the head, or by a blow to another part of the body with the force transmitted to the head. They can range from mild to severe and can disrupt the way the brain normally works. All concussions are potentially serious and may result in complications including prolonged brain damage and death if not recognized and managed properly. In other words, even a “ding” or a bump on the head can be serious. You can’t see a concussion and most sports concussions occur without loss of consciousness. Signs and symptoms of concussion may show up right after the injury or can take hours or days to fully appear. If your student-athlete reports any symptoms of concussion, or if you notice the symptoms or signs of concussion yourself, seek medical attention right away.

Symptoms may include one or more of the following:
- Headaches
- “Pressure in head”
- Nausea or vomiting
- Neck pain

- Fatigue or low energy
- Behavioral/Emotional/Social changes
- Nervousness or anxiety
- Irritability
- More emotional
- Confusion
- Concentration or memory problems (forgetting game plays)
- Repeating the same question/comment
- Amnesia

Signs observed by teammates, parents or coaches include:
- Appears dazed
- Vacant facial expression
- Confused about assignment
- Forgets plays
- Is unsure of game, score, or opponent
- Moves clumsily or displays in coordination
- Answers questions slowly
- Shows behavior or personality changes

RSU NO. 5 CONCUSSION INFORMATION SHEET

What can happen if my child keeps on playing with a concussion or returns too soon?

Continuing to play with the signs and symptoms of concussion leaves the young athlete especially vulnerable to greater injury. There is an increased risk of significant damage from a concussion for a period of time after that concussion occurs, particularly if the athlete suffers another concussion before completely recovering from the first one. This can lead to prolonged recovery, or even to severe brain swelling (second impact syndrome) with devastating and even fatal consequences. It is well known that adolescent or teenage athletes will often under report symptoms of injuries, and concussions are no different. As a result, education of administrators, coaches, parents and students is the key for student-athlete’s safety.

If you think your child has suffered a concussion

Any athlete even suspected of suffering a concussion should be removed from the game or practice immediately. No athlete may return to activity after an apparent head injury or concussion, regardless of how mild it seems or how quickly symptoms clear, without medical clearance. Close observation of the athlete should continue for several hours. RSU No. 5 requires the consistent and uniform implementation of a return to play concussion protocol as reflected in Board policy:

Any student suspected of having sustained a concussion or other head injury during a school-sponsored athletic activity including but not limited to competition, practice or scrimmage, must be removed from the activity immediately.

No student will be permitted to return to the activity or to participate in any other school-sponsored athletic activity on the day of the suspected concussion.

Any student who is suspected of having sustained a concussion or other head injury shall be prohibited from further participation in school-sponsored athletic activities until he/she has been evaluated and received written medical clearance to do so from a qualified and licensed health care provider. Such return to participation will be gradual, and in all cases should be based on current accepted standards of care.

You should also inform the athletic trainer, school nurse, and your child’s coach if you think that your child may have a concussion. Remember it’s better to miss one game than miss the whole season. And when in doubt, the athlete sits out.

STUDENT FUNDRAISING ACTIVITIES

The Board recognizes that it is responsible for providing through the budget process the resources necessary to support the school unit’s instructional programming. However, the Board acknowledges that schools and student organizations may wish to engage in fundraising in order to support their activities, to provide funding for social events and/or student travel, to benefit the school or community, or for humanitarian purposes.

It is the purpose of this policy to provide guidelines for student participation in fundraising activities. This policy only allows fundraising by students for the purposes set forth in the following Sections (A, B, and C):

A. Fundraising Guidelines for Students and Student Organizations

The following general guidelines apply to fundraising by students and student organizations. These guidelines and the additional considerations in Section B and C of this Policy shall apply to student participation in fundraising conducted for other purposes.

1. All student fundraising activities shall be approved in advance by the building principal, who will be responsible for determining whether the educational or financial benefit provided is sufficiently balanced with fostering a sense of community within the school and/or district, and that the activity complies with Section D of this policy.

2. The principal/designee will determine the amount of involvement outside sales representatives will have in presenting their products, distributing promotional materials, and providing sales incentives to students.

3. The fundraising activity, including any presentation by outside sales representatives, demonstration and distribution of products or promotional materials, solicitation of sales, or collection or recording of monies, shall have minimal impact on instructional time and not be unduly demanding of student or staff time or work.

4. Under no circumstances will any student be compelled to participate or donate; or be penalized for not participating or donating. There shall be no mandatory quotas for product sales.
5. Student fundraising activities shall be supervised by a building administrator, teacher, or activity advisor.

6. The activity shall be one in which schools and students may appropriately engage, and shall not subject the schools, students, or their families to unnecessary risk or responsibility. In the event there is a question regarding the appropriateness of a proposed activity, or the proposed fundraising activity is one that is new to the school system, the building principal shall consult with the Superintendent.

7. The following shall be communicated to students and parents/guardians at the start of the fundraising activity:

   a. The reason for the fundraising activity;

   b. A description of the fundraising activity, including the names of any participating for-profit organizations, any anticipated presentations by outside sales representatives, and the approximate percentage of total sales expected to be kept by the school for the benefit of students;

   c. That soliciting donations or sales is voluntary; and

   d. The option for students and parents/guardians to make a voluntary direct donation towards the activity/program benefiting from the fundraising activity, if preferred.

8. Students participating in fundraising activities are expected to conduct themselves in accordance with Board policies, school rules and the student code of conduct.

9. In the interest of student safety, activities involving door-to-door solicitation by elementary level students are prohibited.

10. Club and class dues shall be determined by the club or class officers in consultation with the club or activity advisor. The building principal shall have final authority over the setting of club and class dues. To the greatest extent possible, scholarship funds will be made available to qualifying students.

11. The building administrator, teachers, or advisors supervising fundraising activities will be responsible for the collection, monitoring, deposit into student activity accounts, and disbursement of funds raised in accordance with the Board’s policy DFE, Student Activities Funds Management.
12 Student organizations will be encouraged to engage in fundraising projects that support student wellness or student wellness activities.

B. Fundraising Guidelines for Humanitarian or Charitable Purposes

Students may participate in charitable drives or fundraising activities to benefit humanitarian or charitable causes provided that the activity is conducted in accordance with the guidelines in Section A of this policy and is sponsored by a recognized student organization.

C. Guidelines for Student Participation in Parent Group Fundraising Activities

The Board recognizes that PTCs and other parent groups (e.g., Boosters) may wish to involve students in their fundraising activities. Student participation in fundraising activities to benefit parent groups where the funds raised by the activity will be deposited into the parent group account(s) shall be in accordance with Section A and this Section.

1. Notwithstanding Section A.3, instructional time shall not be used for PTO/Parent Group fundraising activities, including any presentation by outside sales representatives, demonstration and distribution of products or promotional materials, solicitation of sales, or collection or recording of monies.

D. Coordination of Fundraising Activities

1. All fundraising activities in RSU No. 5 shall be coordinated in order to avoid burdening local businesses and the community.

2. Request forms (JJE-F) should be submitted to both the building principal and Superintendent for approval. The district office will coordinate requests to avoid duplication of fundraising activities.
