

## EMPLOYEE USE OF CELL PHONES

The purpose of this policy is to address employee use of cell phones and other electronic communication devices (except laptops), whether school unit-owned or personally owned, including those that send or receive text messages, allow retrieval or sending of email or provide Internet access.

The Board recognizes that the use of cell phones and other electronic communication devices may be appropriate to the efficient operations of the school unit and helping to ensure the safety of students and staff and the security of school unit property.

School unit employees may not use cell phones or electronic communication devices, whether school unit owned or personally owned, for non-school related business while they are engaged in instruction, the supervision of students during a school sponsored activity, or in any other manner that interferes with attending to and/or carrying out their job responsibilities. Employees are free to use their personal cell phones and other electronic communication devices during off-duty, lunch or break times.

Use of cell phones and electronic communication devices, whether school unit owned or personally owned, in a manner that violates Board policies, administrative procedures and/or state or federal laws will result in discipline and referral to law enforcement officials, as appropriate.

In the interest of safety, school unit employees are prohibited from using cell phones and electronic communications devices while driving RSU No. 5 owned motor vehicles and buses, whether transporting students, other staff, or driving alone. Two-way radios installed in buses may be used to communicate with schools and other buses. Radio communication shall be for school business only. School unit employees are also prohibited from using cell phones and electronic communications devices while transporting students in private vehicles. The only exception to this is during an emergency situation, or to call for assistance in the event of a mechanical breakdown or other mechanical problem, and then only when the vehicle is stopped or parked.

RSU No. 5 may provide cell phones or other electronic communication devices to some employees to assist them in carrying out their employment-related duties on or off school property. The Superintendent/designee shall have the discretion as to which employees will be provided school unit owned cell phones and other electronic communication devices, based upon need and availability.

School unit owned cell phones and other electronic communications devices are to be used for school-related business purposes and are not intended for personal use except in emergencies involving employee health or safety. Employees have no expectation of privacy in their use of school unit owned cell phones/electronic communications devices or the information stored on them.
