

EXTRACURRICULAR ACTIVITIES

PHILOSOPHY

Extracurricular activities are those activities in which students voluntarily participate. The Board believes there is a great deal of educational value derived from such participation. There must be certain disciplines and regulations to ensure a successful relationship of individuals to their specific activity, their school and their community. It is further our belief that the individual members of any school activity have an obligation to themselves, their families, their school and their community to assume the responsibility for their own and for the group's success in developing responsible school and community citizenship.
