| Site Plan        | 1. Pat Carroll reviewed revised site plan  
2. Site will maintain 50' Right of Way for Holbrook St. and Snow Road  
3. Dedicated parent drop off with approx. 20 spaces  
4. Dedicated bus drop off  
   - Snow Rd will be widened to 29’-0” only at this location to accommodate busses turning.  
5. Dedicated service area  
6. Increasing student parking to 93 spaces  
   - Removed student parking spaces on Snow Rd. for safety  
7. Existing town lot for student parking will remain  
8. Major cost savings measures  
   - Leaving Holbrook St / Snow Rd as-is without reconfiguring them around the FPAC  
   - Tightening up the parent drop off and keeping some of the existing parking at the drop off area rather than reconfiguring it  
9. PDT confirmed that several meetings were held with the neighborhoods to review the scope of site work  
   - Neighborhood concerns centered around sidewalks  
10. Scope of work includes adding sidewalks at Snow Road to the property line; the Town has indicated they will continue them from the property line through the neighborhoods  
11. Mr. Watts requested that the team review the current theater storage pod and incorporate it or an alternative storage solution into the site plan  
   - Primarily used for sets and set supply storage                                                                 |                                                                                                                                 |
| User Group Update| 12. PDT reviewed revised department plans based on meetings with user groups  
13. PDT requested any information about special equipment that needs to be incorporated or considered in planning  
14. Discussed the offices currently designated “SW” in the plans. The use of these offices is dependent on future staffing. They may get reprogrammed – one could be used for the part-time school psychologist or speech therapist.  
15. SRO officer is in the school part time and uses the office mainly for writing reports. PDT will review feasibility of a 68 S.F. office for this use.  
16. Mr. Campbell brought up the concern that the current fans in the cafeteria are too loud for conducting classes, meetings, or conversations |                                                                                                                                 |
### Topic: Action

1. PDT will specify new fans for the art rooms to prevent stratification

### Space Allocation Spreadsheet

17. PDT reviewed the updated space allocation spreadsheet
   - PDT will add a column that shows what the numbers were with the referendum plan
   - Committee requested information that shows what the school actually has rather than the planning numbers used

### General Discussion

18. Peace Garden: There is no current scope for this space
   - Some students are already looking at this space to make it more inviting
   - Mr. Campbell raised the concern that this space is easily accessed by the low roof at the connecting hallway between classroom wing and library. It is a serious security concern
   - PDT will review this concern

19. The heart of the school is at the intersection of corridors outside Admin offices.
   - Committee requested that PDT review this area and see if it can be opened up, made more inviting, addressed what actually happens here
   - Committee requested that drinking fountain be relocated to prevent bottleneck at this intersection

20. Committee members expressed that they liked the study space that opened out to the Peace Garden in the previous plan and requested that PDT look at breaking up the long corridor of classrooms in some fashion
   - Suggested maybe moving one of the Futures Labs down so that it opens onto the garden

21. Committee expressed concern that the roof replacement scope at the 1961 building was part of the scope presented to the town for referendum but might need to be eliminated due to cost.
   - PDT is evaluating the scope of work required to re-roof the old building and will prepare cost estimates for review by the committee.

### Approval to Proceed

22. Committee gave PDT approval to proceed with plans to the next phase
   - PDT will prepare a Schematic Design package and then proceed with Design Development

### Schedule / Next Meeting

23. Next meeting is scheduled for 2/4/15 at 8am.
24. PDT stated that typically Building Committee meetings are allotted 2 hours (and had been prior to referendum) and suggested that the Committee consider lengthening the monthly meetings.
RSU #5  FREEPORT HIGH SCHOOL
1. Review of revised site plan
2. Update of User group meetings
3. Review of revised Floor Plans
4. General Discussion of changes presented to date
5. Approval to proceed with changes to date
6. Schedule review
7. Next meeting date: **February 4, 2015**
EXISTING UPPER LEVEL
GENERAL
DISCUSSION

• Feedback from Committee
• Sign-off from Committee
