RSU No. 5 Board of Directors: ________
June 9, 2016

Ed McDonough
Superintendent of Schools
RSU No. 5
17 West Street
Freeport, ME 04032-1121

RE: Freeport High School

Dear Ed:

Attached to this letter is a construction summary of work completed at the Freeport High School Addition and Renovation Project.

This letter also includes a summary of Change Order Proposals which have been previously approved by the RSU No. 5 Board, as well as by the construction team since the start of construction.

Sheridan Corporation, the general contractor for the project, has done a very good job of purchasing, installing and constructing the project to date. They've had the benefit of very good weather throughout the winter and in spite of running into substantial, unsuitable soils under the building addition and waterline, the contractor estimates they are somewhere between 2-4 weeks ahead of schedule.

The architects and construction team recently approved Pay Requisition Application #7 in the amount of $1,285,778 on June 2, 2016. The value of work completed and stored to date is $4,080,576 and represents 39.4% completion of the entire project.

We have been very pleased with the quality of Sheridan's work, overall project management and supervision, and their cooperation and teamwork approach to the project. There have been thirty (30) change order proposals to date approved by both the RSU Board, as well as the construction team. The two largest change order proposals approved by the RSU No. 5 Board were back in January relating to enlarging and improving the new maintenance storage building. The total amount of monies related to those two change orders is $70,871. Other change orders which have been approved throughout the construction include unsuitable soils under the existing building, unsuitable soils found under the old Industrial Arts Building,
and unsuitable soils and stumps found as part of the water line extension under Holbrook Street. Other changes included temporary security fencing, adding glycol to the FPAC heating system, adding power to the relocated portable classrooms, as well as miscellaneous structural improvement and floor slab reinforcement for radiant heat. All other additional change orders total $98,645 so the total value of all change orders approved to date is $169,516.

Work completed over the last six (6) months includes the completion of the concrete foundations, all underground plumbing and drain lines, the completion of the concrete slabs on the 1st and 2nd floors (including the radiant heat areas), completion of the structural steel frame, completion and water tightness of the roof membrane at the new addition, as well as the completion of the new waterproof, EPDM membrane at the original 1961 building.

Steel stud framing completion on the exterior of the building including exterior sheathing and air barrier membrane, the beginning of electrical wall conduit installation, mechanical, plumbing systems and the exterior brick veneer. Other work completed this month included fireproofing of the structural steel frame.

The Building Committee took their first tour of the building on June 1st. They were able to see the layouts of all the interior rooms on both the 1st and 2nd floors.

The Building Committee expects to continue to tour every 30-60 days as the work progresses. The new addition deadline for completion is December 20, 2016.

Very truly yours,

RE: Freeport High School Building Upgrade Requests

Dear Ed:

The purpose of this letter is to summarize, for the RSU No. 5 Board of Directors, the recommendations and requests being made concerning reinstatement of items cut from the project in December 2014, as well as safety and security upgrades to cover the entire building. Attached to this letter please find a copy of building upgrade request dated May 4, 2016, an Excel spreadsheet matrix, showing decision dates, original budget allowance and actual quotations to implement work. This matrix was the working document the Building Committee used to create priorities and make decisions.

In summary the improvements fall into the following categories:

I. Items previously approved and recommended to the RSU No. 5 Board include the following:

1. Expanding the maintenance building - $47,600.
2. Completing the fit-out for the maintenance building with plumbing, heat and insulation - $24,223.
3. Art installation materials expenses - $15,000.

II. Items voted on by the Building Committee and recommended for approval by the RSU No. 5 Board include the following:

1. Replace flooring in the library with new carpet tile - $16,956
2. Kitchen request for washer/dryer with utility - $8,832
3. Kitchen request for cash wrap and table changes - $6,759
4. Electrified hardware to support card swipe access control system at exterior doors, including the existing building - $20,675

5. Electrical IT infrastructure improvements for requested classroom IT equipment - $25,591

III. Request by the RSU No. Items voted on by the Building Committee are recommended for approval by the RSU No. 5 IT Department:

1. Replace ceiling and lighting in library - $75,000
2. Increase new and existing classroom technology for all rooms in the high school - $38,371
3. Wiring for expanded cameras, devices, server and software for security cameras, both inside and outside the building - $18,234
4. Camera devices, server and software for final camera selections - $42,766-$61,066
5. Keyless entries access control and security alarms for all exterior doors - $62,100
6. Re-keying with new cylinders all existing interior school door and new Medco exterior locks - $24,065

As you and the Board know, bids for the Freeport High School project came in below the architect’s estimates resulting in unspent monies in the amount of $622,000. Some of this unspent money needed to be reserved for installation of temporary portable classrooms and for asbestos removal inside the building. PDT had carried a budget of $150,000 for those two items in 2013.

There were other items, however, which were deleted and reduced as part of the cost saving measures. Some of the most significant were reducing the floor plan size of the addition, reducing library upgrades for ceiling lights, flooring and furniture and reducing furniture and technology budgets. There was also a reduction made in the amount of landscaping at the front of the school and a reduction in seating at the rear bus entrance adjacent to the food court.
Immediately after the bid opening PDT and the Building Committee prepared a list of items to put back into the building and to complete items not bid such as cameras and security upgrades to door systems.

The Building Committee has worked throughout the winter and spring to get actual quotations from contractors to complete most of these items. They have chosen to make recommendations to the RSU No. 5 Board for immediate implementation of many items.

The Building Committee has chosen not to increase expenditures for new furniture in the existing building in the amount of $164,600. They have chosen not to renovate the student and staff bathrooms near the library in the 1975 addition. The Building Committee has also chosen to postpone increasing landscaping and seating at the front of the school, which had been previously reduced, as well as to reduce exterior seating and tables outside the food court until the end of the project.

The sum of the times which the Building Committee has approved and is recommending for approval to the RSU No. 5 Board is approximately $443,472.

John Simoneau and I will be attending the Board’s June 15th meeting to answer any questions Board members may have concerning these upgrades and reinstatement of 2014 cuts and reductions.

Please feel free to call should you have any questions.

Very truly yours,

RE: Policy Adoption

At the June 15, 2016 RSU5 Board of Directors Meeting, the following policy will be on the agenda for 2nd Read/Adoption. The Policy is attached.

1. JJIF – Management of Concussions and Other Head Injuries
STUDENT CONCUSSIONS AND OTHER HEAD INJURIES

The Board recognizes that concussions and other head injuries are serious and can potentially result in significant brain damage and/or death if not recognized and treated properly. This policy is intended to promote awareness of this issue as well as the safety of students participating in school-sponsored activities that may pose a risk of concussion or other head injuries. This policy also applies to all school-sponsored activities that the Superintendent determines, in consultation with school staff, pose a risk of concussion or other head injury (hereafter referred to as “any other covered activities”).

The Superintendent shall ensure that all training, protocols and forms implemented in the school unit are consistent with materials promulgated by the Maine Department of Education.

A. **Staff Training**

All school personnel involved in school-sponsored activities shall receive training in the identification and management of concussions and other head injuries.

All identified personnel will receive refresher training whenever the Maine Department of Education recommendations, protocols and/or forms have been revised.

B. **Student and Parent/Guardian Acknowledgment**

Students who intend to participate in school-sponsored athletics (and any other covered activities), and their parent(s)/guardian(s) are required to sign the School Department’s Concussion/Head Injury Acknowledgment Form each year. Students may not participate in athletics (and any other covered activities) until the Acknowledgment Form is returned to the school.

C. **Removal of Students from School-Sponsored Activities, Evaluations and Medical Clearance**

Any student suspected of having sustained a concussion or other head injury in any school-sponsored activity must be immediately removed from the activity, practice or game.

A student suspected of having sustained a concussion or other head injury must receive a brain injury evaluation and written medical clearance from a licensed health care provider, trained in concussion management, and operating within the scope of practice such as an MD, DO, Physician’s Assistant or Nurse Practitioner prior to his/her being allowed to resume participation in the activity. Such return to participation may be gradual, and in all cases should be based on current accepted standards of care and the health care provider’s recommendations.

D. **Academic and Disability Considerations**

Teachers and other school staff should be alert to possible cognitive and academic issues that a student who has sustained a concussion or other head injury may experience. School staff shall

RSU No. 5 School Department

Page 1 of 2
permit adjustments to the academic day and/or expectations, consistent with a medical recommendation from the student’s health care provider.

E. **Concussion Management Team**

The Superintendent will appoint a Concussion Management Team to be responsible, under the supervision of the Superintendent, to make recommendations related to the implementation of this policy. The Concussion Management Team will include the school nurses, Athletic Director, Athletic Trainer and may include one or more principals or assistant principals, the school physician, and other school personnel or consultants as the Superintendent deems appropriate.

MEMORANDUM

To: RSU5 School Board Members
From: Ed McDonough
Date: June 8, 2016
Re: Formation of a Track & Field Advisory Committee

The purpose of this memo is to recommend the School Board vote and establish an advisory committee as outlined in your policy (BCF) to assist the Board in pulling together the necessary information to consider advancing a referendum on a track and field in November 2016.

The Track & Field Advisory Committee’s charge will be to work closely with the Tri-Town Track and Field Committee and the experts who are doing the geotechnical investigations (S.W. Cole) as well as the preliminary site design (Carroll Landscape Architects, Stantec Engineering). The Track & Field Advisory Committee should present its findings to the School Board in early September so the Board may consider placing the question on the November ballot. Details should include a preliminary budget and schematic design that lays out all features to be included in the project.

I would suggest the board appoint three members from the existing high school building advisory committee and three members from the current Tri-Town Track and Field group. I would recommend four additional members, Facilities Director Ouellette, School Board Chair Ritcheson, School Board Member, Parker, and Superintendent Foley.

Track & Field Advisory Committee to the RSU 5 School Board

John Simoneau, Chair, FHS Building Advisory Committee
Kim LaMarre, FHS Building Advisory Committee
Craig Sickels, FHS Athletic Administrator and FHS Building Advisory Committee

Fred Palmer, Tri-Town Track and Field
John Patterson, Tri-Town Track and Field
Dan Broderick, Tri-Town Track and Field

Dennis Ouellette, Facilities Director
Michelle Ritcheson, RSU5 School Board Chair
Beth Parker, RSU5 School Board
Becky Foley, RSU5 Superintendent of Schools

RE: RSU5 Town Assessment Warrants

The amount of each member town’s assessment has been determined for the 2016-2017 school year based on the budget before the voters at the upcoming June 14, 2016 Budget Validation Referendum. If the budget is approved by the voters the Board is required to approve and sign the warrants and then to direct the Treasurer to issue the assessments to each member town. There is a motion on the agenda for the Board’s consideration. A copy of the Assessment Warrant and Assessment Schedule and Notice of Installments are attached for review. Please feel free to contact me with any questions.
