BOARD MEMBER USE OF SOCIAL MEDIA

The Board recognizes that many, if not most, of its members are active users of social media, including but not limited to, online platforms such as Facebook and Twitter, and other digital media such as blogs and personal websites. The Board understands that while social media can be a positive tool for supporting schools and encouraging community engagement, Board members need to be aware of the legal and ethical considerations that arise when they post, "message," or otherwise interact with others on social media platforms.

It is not the intent of this policy to interfere with or restrict a Board members' freedom of speech, but to set standards [OR: expectations] for social media conduct that are consistent with law and Board policy, including the Board’s Code of Ethics.

Board members shall comply with the following provisions:

- Board members shall not post on social media or engage in online discussions as a substitute for deliberations at Board meetings. Board members should be aware that social media activity can be perceived as a meeting if a sufficient number (a quorum) of Board members are involved on the site to influence or determine the course of action that will be taken by the Board, even if other people are posting to the site as well.

- Board members should be aware that any posting that pertains to school unit matters may create a "record" that is subject to laws and regulations pertaining to the retention and disposition of local government records, and to discovery in legal proceedings involving the Board or the school unit.

- Board members shall avoid disclosing confidential or personally identifiable information about students (including images), school unit employees, or Board matters or discussions that have taken place in executive sessions. Board members shall comply with the same standards as school employees with regard to confidential information.

Board members should adhere to the following ethical guidelines when using social media in their role as public officials:

A Board member should:
• Recognize that he/she has no authority to speak on behalf of the Board unless specifically designated to do so, and make it clear that he/she is speaking in his/her individual capacity;

• Feel free to invite the public to upcoming school district events, share information about public hearings on bills that affect the schools, and share links to public information about the district (e.g. the proposed budget), and the like, but be clear that he/she is doing so as an individual and not in any official capacity;

• Conduct himself/herself on social media in a manner that reflects well on the Board and on the school unit, and with the decorum expected of an elected official;

• Avoid posting in anger, even when provoked;

• Refrain from harassing, defaming, or disparaging fellow Board members or others based on racial, religious, or other personal characteristics;

• Keep deliberations within meetings of the Board;

• Take care to avoid disclosing confidential or personally identifiable information about students (including images), school unit employees, or Board discussions that have taken place in executive sessions;

• Avoid posting information that is misleading or inaccurate or which is has not been released to the public;

• Not make any promise that he/she will vote in a particular way;

• Avoid posting content that indicates he/she has reached an opinion on a pending matter;

• Direct persons presenting concerns or complaints through social media to follow the Board’s policy pertaining to public concerns and complaints;

• When summarizing discussion or action that took place at Board meetings, share only information from open meetings and make it clear that the posting is not an official record of the meeting. A Board member should never disclose discussions that have occurred in executive session.
• Retain electronic records, including the Board member’s own posts and content others post to the Board member’s account when required to do so by law, regulations, or legal process.

• Comply with the school unit’s acceptable use rules, as applicable to school unit employees, when using school-unit owned devices or technology resources, or when accessing the Internet through school unit’s network using a personal device.

GRADUATION REQUIREMENTS

Before entering high school, students need to know the requirements for attaining a high school diploma in order to plan an appropriate, sequential, educational program to meet that goal.

RSU No. 5 is in the process of implementing proficiency-based teaching and learning and transitioning, over a period of five years, from traditional graduation requirements to proficiency-based diploma requirements.

These new graduation requirements will require that students demonstrate proficiency – provide evidence – that they have achieved expected learning standards, and acquired the knowledge, skills, and work habits that will prepare them for postsecondary education and viable careers.

When fully implemented, these new diploma requirements will require students to demonstrate that they have met the expectations associated with the content standards and Guiding Principles of the Maine Learning Results.

I. DIPLOMA REQUIREMENTS FOR STUDENTS GRADUATING IN THE CLASS OF 2018

A. As a minimum for graduation from high school, students graduating in the Class of 2018 must have completed successfully a total of 22 one-year course equivalents (credits) at the secondary level (grades 9 through 12).

Of these credits, twelve and one-half (12 ½) required credits are specified by the State of Maine. They are:

1. English - 4 credits;
2. Social Studies and History, including one year of American History and Government - 2 credits;
3. Mathematics - 2 credits;
4. Science, including at least one year of laboratory study - 2 credits;
5. Fine Arts, which may include art, music, forensics or drama - 1 credit;
6. Health - 1/2 credit; and
7. Physical Education - 1 credit.

B. In addition, the Board requires the following nine and one-half (9 ½ credits):

1. One year of a world language – 1 credit;
2. A third year of math – 1 credit;
3. A third year of social studies – 1 credit;
4. Two additional years of science – 2 credits;
5. One-half of the P.E. credit must be Foundations of Fitness

6. Four and one-half elective credits.

C. Elective credits may be selected by the student based upon the student’s interests, abilities, and the requirements of the field that the student plans to enter upon graduation.

In order for a student to participate in graduation, the student must have successfully completed all of the above-listed requirements.

Alternative Means of Earning Credits
A student who is deficient in these requirements or wishes to meet these requirements through alternative means may earn and apply credits toward graduation in accordance with the provisions of this section.

A student who wishes to meet a credit requirement through an alternative method must have prior written approval as specified through this section. A student may earn credits with prior written approval from his/her guidance counselor and the high school principal as follows:

A. Course work offered through RSU No. 5 Adult Education;
B. Credit obtained through summer school classes;
C. Credit obtained through distance learning/virtual courses;
D. Advanced courses not offered at Freeport High School at a post-secondary institution;
E. Credits obtained through independent study monitored by a Freeport High School teacher; or
F. Or any other academic program approved by the high school guidance and administration.

A student who has failed a course in the above-listed requirements may, with prior approval, receive credit for that course through a successful completion of a post-graduate course, a state approved Adult Education course(s) or a state-approved summer school program. Credit for a marked course may also be received for a correspondence course approved by the High School Principal in advance of registration. The student may participate in the next regular graduation ceremony following successful completion of the requirements.

A student who is granted early admission to an accredited college or university may use college course work for graduation and may thereby graduate with his/her class upon successful completion of the course(s) needed for graduation if he/she requests and is granted permission from the high school principal to do so. A course being used to meet high school graduation requirements must meet minimum high school contact hour requirements and the high school’s course outcome requirements.

Middle School Students Earning High School Credit
Middle School students successfully completing high school level courses offered at the high school and taught by high school staff or through a program approved by the high school administration in consultation with appropriate department head will be given one (1) credit (experience) toward graduation.
Veterans of World War II, the Korean Conflict and Vietnam War Era

The School Board recognizes that Maine law provides that a secondary school may award a high school diploma, provided that certain requirements are met, to a person who left secondary school prior to graduation to serve in the Armed Forces during World War II or in the Korean Conflict, or in the Armed Forces during the Vietnam era (February 28, 1961-May 7, 1975). The Board authorizes the Superintendent to develop and implement procedures regarding applications for diplomas, including timelines, and for determining whether veterans have met the criteria established by law. The Superintendent may also determine the time and manner in which a veteran’s diploma may be presented.

COMPLAINTS ABOUT SCHOOL PERSONNEL

This policy is intended (1) to create climate in the schools whereby persons are encouraged to bring complaints to the attention of school official for resolution, and (2) to explain the responsibilities of school officials in handling complaints. The Board of Directors believes that constructive criticism, when it is motivated by a sincere desire to improve the quality of our educational programs, assists school personnel to perform their responsibilities more effectively. At the same time, the school board places trust in its employees and desires to support their actions in such a manner that employees not be subjected to unnecessary, spiteful, or frivolous complaints.

Complaints will be referred to the proper school decision maker for resolution at the lowest possible level. Generally, the first step will be to discuss the matter directly with the employee against whom the complaint is registered. If this is clearly inappropriate because of the nature or severity of the complaint, the person making the complaint may request a conference with the principal/immediate supervisor to discuss the complaint. The principal/immediate supervisor or his/her designee will look into the complaint and communicate with the person making the complaint. Privacy rights of all parties to the complaint will be respected.

If a complaint cannot be resolved at a lower level, it may be presented to the Superintendent. The person requesting the Superintendent’s review must submit the complaint in writing, setting forth the specific facts on which the complaint is based and attaching all documents in support of the complaint. The Superintendent will provide a copy of the written complaint to the person against whom the complaint is made.

If a complaint remains unresolved at the Superintendent’s level, the person making the complaint may request that the matter be placed on the Board’s agenda. The Board Chairperson will decide whether the complaint will be placed on a Board agenda. If a complaint is placed on an agenda, the superintendent will invite the complainant and the person against whom the complaint is made to attend the meeting and will provide the school board members with a copy of the complaint and supporting documents.

The Board will determine the procedural rules for any meeting to hear a complaint. Any such meeting will be held in executive session. Only if the Board elects to record the meeting will any recording of the meeting be permitted. If a group submits a complaint that is placed on the school board agenda, a delegation of no more than two individuals must be designated to represent the group and to present the complaint to the Board.

This complaint policy may not be used by employees for employment matters. Such matters need to be processed through the appropriate grievance procedure, if any.

STUDENT TEACHING AND INTERNSHIPS

The Board of Directors, recognizing both its responsibility to improve the quality of teacher training and the contribution that student teachers and interns can make to the school system, encourages the administration to cooperate with teacher-preparation institutions in the placement of student teachers in the public schools.

The importance of the teacher-preparation function to the future of education and the need to assure a high quality of performance in our schools demands that student teachers be placed only with the best teachers. Therefore, teachers allowed to accept the added responsibility of training student teachers must be superior. Because they continue their primary responsibility—the education of the children in their charge—their commitment is doubled. These teachers must have demonstrated to their Principals a capacity and willingness to meet these additional demands. No teacher shall be requested to act as supervisory teacher more than twice in any school year when other qualified supervisory teachers are available.

Further recognizing the special skills and expertise of the teacher-preparation institution and its staff, the Board authorizes the administration to honor the reasonable rules, regulations and training guidelines of the sending institution.

In all arrangements made with preparation institutions, the school system shall be given the privilege of interviewing and accepting or rejecting individual candidates for student teaching and internships.

The school administration shall devise procedures for evaluating the performance of student teachers and interns, which meet with requirements of the sending institution and aligned with the Board’s policies.
